6. YEAR IN RETROSPECT AND FUTURE OUTLOOK

The financial year 2017-18 was a year of two halves, which saw sharp contrast in the manner in which the economy grew in the first and second half. Transient challenges emanating from the continuing impact of 'Demonetization' and the implementation of GST slowed down the economy in the first half of the year.

However, with the last quarter of the second half of the year witnessing near complete 'Remonetization' of the economy along with smoothening of the GST architecture, business activity revived with the country's GDP estimated to have growth at 6.7% FY18 vis-à-vis 6.1% growth seen in Apr-Sep FY18. FY18 was the year of profound economic changes on both the global and domestic front. Globally, economic recovery gathered momentum with 2017 characterizing a synchronized improvement across all regions. Domestically, economic RBI shifted monetary policy stance to 'neutral' from 'accommodative' during the course of the year. These structural policy reforms have ushered in the desirable drive of 'Formalization through Financialization' of the economy while also helping revive investments by unlocking capital stuck in the non-productive assets. This resulted in the substantial inflow of the domestic funds in the Capital Markets and BSE Sensex moved up from 29,620.50 on 31st March 2017 to 32,968.68 on 31st March, 2018 having peaked on 31st January, 2018 at 35,965.02

However the macros have worsened considerably in the current financial year. Price of Brent crude has moved upto US \$80 per barrel and 10 year bond yields have moved up to a high of 7.9 %, while rupee has depreciated to 68 against a dollar. These will considerably affect both the fiscal and current account deficit. Inflation has also moved up to 4.6% year on year in April from 4.3% year on year the previous month. Headline Core Inflation accelerated to 5.8% Year on Year and is now only slightly below the MPC target range of 2-6% Year on Year. To support the economic growth, revival of the India's banking sector will need to keep pace with it. The process of resolution of the NPA's which has got streamlined through the Insolvency and Bankruptcy Code (IBC) framework, is witnessing good progress. This could throw up opportunities for companies in the financial services industry.

Your Company is registered as Category I Merchant Banker and executes various assignments in areas of Mergers and Acquisitions, Loan Syndication, Capital Market Operations, Placement of Equity Shares and Bonds. Your company is hopeful of executing current assignments which will enable it to post reasonable return under the circumstances in the current year.

7. LISTING OF THE SECURITIES OF THE COMPANY

Equity Shares of your Company continue to be listed on BSE Limited and The Calcutta Stock Exchange Limited and the listing fees for the year 2018-19 have been paid. 98.90 per cent of the equity shares of your Company are held in dematerialized form.

ANNEXURE TO DIRECTORS' REPORT MANAGEMENT DISCUSSION AND ANALYSIS

1. FINANCIAL STATEMENTS

Financial Statements are in compliance with the provisions of the Companies Act, 2013 and the Accounting Standards issued by ICAI. Readers are cautioned that this discussion may include “forward-looking statements” that are not historical in nature. Forward looking statements may include statements relating to future results, financial condition, business prospects, plans and objectives. Statements are based on current beliefs, assumptions, expectations, estimates and projections on the business segment in which your company operates. The statements do not guarantee positive performance, exposed to known and unknown uncertainties, many of which are beyond the control of your Company. Uncertainty could cause results to differ from forward-looking statements, which should not be construed as representation of future performance.

2. MACRO-ECONOMIC OVERVIEW

The financial year 2017-18 was a year of two halves, which saw sharp contrast in the manner in which the economy grew in the first and second half. Transient challenges emanating from the lagged impact of ‘Demonetization’ and the implementation of GST slowed down the economy in the first half of the year.

FY18 was the year of profound economic changes on both the global and domestic front. Globally economic recovery gathered momentum during the year witnessing a synchronized improvement across all regions. Domestically, RBI shifted monetary policy stance to ‘neutral’ from ‘accommodative’ during the course of the year. These structural policy reforms have ushered in the desirable drive of ‘Formalization through Financialization’ of the economy while also helping revive investments by unlocking capitalstuck in the non-productive assets. This resulted in a substantial inflow of the domestic funds in the capital markets and BSE Sensex moved up from 29,620.50 on 31st March 2017 to 32,968.68 on 31st March, 2018 having peaked on 31st January, 2018 at 35,965.02.

However the macros have worsened considerably in the current financial year. Price of brent crude has moved upto US \$80 per barrel and 10 year bonds yields have moved upto a high of 7.9 %, while rupee has depreciated to 68 against a dollar. These will considerably affect both the fiscal and current account deficit. Inflation has also moved upto 4.6% year on year in April from 4.3% year on year the previous month. Headline Core Inflation accelerated to 5.8% Year on Year and is now only slightly below the MPC target range of 2-6% Year on Year.

3. OPPORTUNITIES

To support the economic growth, revival of the India’s banking sector will need to keep pace with it. The process of resolution of the NPA’s which has got streamlined through the Insolvency and Bankruptcy Code (IBC) framework is witnessing good progress. This could throw up opportunities for companies in the financial services industry.

4. THREATS

The macros have worsened considerably in the current financial year. Price of brent crude has moved upto US \$80 per barrel which will considerably affect both the fiscal and current account

deficit. Inflation has also moved up and 10 Year Bond yields have moved upto 7.9% raising the possibility of RBI increasing the REPO rate. This is likely to affect both consumption and investment sector of the economy.

In view of the above, it appears that 2018-19 could be a tough year for the economy. If government spending slows down, it will also slow down revival in economy and adversely affect earnings growth of Companies estimated for the current year.

5. CAPITAL MARKETS

As on March 31, 2018, BSE Sensex was 32,968.68 (previous year 29,620.50).

6. STANDALONE FINANCIALS

Your Company's revenues increased from ₹ 411.79 million to ₹ 506.20 million. Profits after Tax (PAT) has increased to ₹ 26.39 million (Previous year ₹ 8.55 million).

7. FUTURE OUTLOOK

India is likely to be the fastest growing economy in 2018-19. Tax reforms like GST have boosted confidence of investors and will act as a catalyst for growth of the economy.

The growth momentum in India is expected to be driven by consumption sector and increased government spending on infrastructure projects. This is expected to and lead to increased industrial and financial activity. Your company is hopeful of executing current assignments which will enable it to post reasonable return under the circumstances in the current year.

Monsoon is expected to be normal in the current year which will increase rural incomes. Your company is hopeful of increasing business in the areas of mergers and acquisitions, debt restructuring, loan syndication and raising equity capital for companies.

8. GREEN INITIATIVE

Your Company has endeavored to popularize the initiative announced by the Central Government vide its Circular No. 17/2011 dated April 21, 2011 and Circular no. 18/2011 dated April 24, 2011. Your company took measures to send all documents in electronic mode to the members who have registered their email ID's with the Company / Registrar & Share Transfer Agent, a step towards achieving paper less statutory compliances.

9. INTERNAL CONTROL SYSTEM AND THEIR ADEQUACY

Internal control system adopted aimed at promoting operational efficiencies and emphasizing adherence to the policies adopted by the Board of Directors.

10. CAUTIONARY STATEMENT

Statements in the Management Discussion and Analysis describing your Company's position and expectations may be "forward looking statements" within the meaning of the applicable securities laws and regulations. Results could differ materially from the statements expressed or implied.

Agenda and detailed notes on agenda were sent at least seven days in advance, and a system exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for meaningful participation at the meeting.

Majority of the decisions at the Board and Committee Meetings are carried through unanimously as recorded in the minutes of the respective Meetings.

I further report that as represented by the Company and relied upon by me, there are systems and processes in the company commensurate with the size and operations of the company to monitor and ensure compliance with applicable laws, rules, regulations and guidelines. However, better system can be adopted in the above connection by the Company.

I further report that during the audit period, there were no instances, which the Company had entered into and had a major bearing on the company's affairs in pursuance of the above referred laws, rules, regulations, guidelines, standards, etc. referred to above for example:

- i) Public/ Right/ Preferential issue of shares/ debentures/ sweat equity;
- ii) Redemption/ buy back of securities;
- iii) Major decisions taken by the Members in pursuance to Section 180 of the Companies Act, 2013;
- iv) Merger / Amalgamation / Reconstruction, etc.
- v) Foreign technical collaborations.

INDEPENDENT AUDITORS' REPORT

To the Members of **SMIFS CAPITAL MARKETS LIMITED**

Report on the Standalone Financial Statements

We have audited the accompanying Standalone Ind AS financial statements of SMIFS Capital Markets Ltd ("the Company"), which comprise the Balance Sheet as at 31st March 2018, the Statement of Profit and Loss (including Other Comprehensive income), the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and a summary of the significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these Standalone Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act, read with relevant rules issued thereunder. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Standalone Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these Standalone Ind AS financial statements based on our audit.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the Standalone Ind AS financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Standalone Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the Standalone Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the Standalone Ind AS financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Standalone Ind AS financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Standalone Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including the Ind AS, of the state of affairs of the Company as at 31st March, 2018, and its financial

performance including other comprehensive income, its cash flows and the change in equity for the year ended on that date.

Other Matters

The comparative financial information of the Company for the year ended 31st March, 2017 and the transition date opening Balance Sheet as at 1st April, 2016 included in these Standalone Ind AS financial statements, are based on the statutory financial statements prepared in accordance with the Companies (Accounting Standards) Rules, 2006 audited by the previous auditors whose report for the year ended 31st March, 2017 and 31st March, 2016 dated 23rd May, 2017 and 30th May, 2016 respectively expressed an unmodified opinion on those financial statements, as adjusted for the differences in the accounting principles adopted by the Company on transition to the Standalone Ind AS, which have been audited by us. Our opinion on the Standalone Ind AS financial statements and our report on Other Legal and Regulatory Requirements below is not modified in respect of these matters.

Report on Other Legal and Regulatory Requirements

- I. As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the Annexure A, a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

ANNEXURE - B TO THE AUDITORS' REPORT

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of SMIFS Capital Markets Ltd to the extent records available with us in conjunction with our audit of the standalone Ind AS financial statements of the company as of and for the year ended 31st March 2018.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the standalone Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being

made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the standalone Ind AS financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2018, based on the internal control over financial reporting criteria established by the Company.

SMIFS CAPITAL MARKETS LIMITED

NOTES ON FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2018

The Company Information

Smifs Capital markets Limited (the “Company”) is a public limited company incorporated and domiciled in India and has its registered office at Vaibhav, 4F, 4, Lee Road, Kolkata - 700 020, India. The Company is listed on the BSE Limited and Calcutta Stock Exchange Limited. The company is engaged mainly in merchant banking and trading in government securities and shares.

The financial statements for the year ended March 31, 2018 were approved by the Board of Directors and authorised for issue on 30th May 2018.

Note: 1 Significant accounting policies

This note provides a list of the significant accounting policies adopted in the preparation of these financial statements. These policies have been consistently applied to all the years presented, unless otherwise stated.

a) Statement of Compliance

The financial statements comply in all material aspects with Indian Accounting Standards (Ind AS) notified under the companies (Indian Accounting Standards) Rules, 2015 as amended by companies (Indian Accounting Standards) (Amendment) Rules, 2016, the relevant provisions of Companies Act, 2013 (“the Act”)

The financial statements up to year ended 31 March 2017 were prepared in accordance with the accounting standards notified under the section 133 of the Companies Act, 2013 read together with Rule 7 of Companies (Accounts) rule 2014, (Indian GAAP).

The transition from Previous GAAP to Ind AS has been accounted for in accordance with Ind AS 101 “First Time Adoption of Indian Accounting Standard” with April 1, 2016 being the transition date.

In accordance with Ind AS 101 “First Time Adoption of Indian Accounting Standard” the Company has presented a reconciliation from the presentation of final statements under accounting standards notified under the Companies Accounting Standard Rules, 2006 i.e. “Previous GAAP” to Ind AS of total equity as at April 1, 2016 and March 31, 2017, total comprehensive income and cash flow for the year ended March 31, 2017.

The financial statements are presented in Indian Rupees except otherwise indicated.

b) Basis of Preparation

The Financial Statements of the Company have been prepared on historical cost convention under accrual method of accounting and as a going concern concept except for certain assets and liabilities which are measured at fair values as required by Ind AS.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

All assets and liabilities have been classified as per the Company’s normal operating cycle and the other criteria as set out in the Division II of Schedule III to the Companies Act, 2013. The Company has ascertained its operating cycle as 12 months for the purpose of current and noncurrent classification of assets and liabilities.

c) Use of estimates

In preparation of the financial statements, the Company makes judgements, estimates and assumptions about the carrying values of assets and liabilities that are not readily apparent from other sources. The estimates and the associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and the underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised, and future periods affected.

d) Property, plant and equipment

Property, plant and equipment are stated at cost less accumulated depreciation/amortization and impairment, if any. Freehold land is disclosed at cost less impairment, if any. Cost comprises of purchase price and directly attributable cost of acquisition/ bringing the asset to its working condition for its intended use (net of credit availed, if any). Capital work in progress, plant and equipment is stated at cost, net of accumulated depreciation and accumulated impairment losses, if any.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the entity and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

On transition to Ind AS, the entity has elected to continue with the carrying value of all of its property, plant and equipment recognised as at 1st April 2016 measured as per the previous GAAP and use that carrying value as the deemed cost of the property, plant and equipment.

An item of property, plant and equipment and any significant part initially recognised is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the income statement when the asset is derecognized.

Depreciation

Depreciation is the systematic allocation of the depreciable amount of PPE over its useful life and is provided on a written down value basis over the useful lives as prescribed under Schedule II to the Companies Act, 2013.

Depreciable amount for PPE is the cost of PPE less its estimated residual value. The useful life of PPE is the period over which PPE is expected to be available for use by the Company, or the number of production or similar units expected to be obtained from the asset by the Company.

Depreciation on additions is provided on a pro-rata basis from the month of installation or acquisition. Depreciation on deductions/disposals is provided on a pro-rata basis up to the month preceding the month of deduction/disposal.

e) Impairment of Non-financial assets

The Company assesses at each reporting date whether there is any indication that any property, plant and equipment and intangible assets or group of assets, called cash generating unit may be impaired. If any such indication exists, the Company estimates the recoverable amount of the asset. If such recoverable amount of the asset or the recoverable amount of the cash generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognised in the Statement of Profit and Loss. If at the balance sheet date there is an indication that if a

previously assessed impairment loss no longer exists, the recoverable amount is reassessed, and the asset is reflected at the recoverable amount.

f) Inventories

Inventories consisting of shares and securities has been individually valued script wise at lower of cost and market rate, in case they are quoted. Other stock-in-trade are valued at cost/ net asset value whichever is lower or where balance sheet of investee Company is not available for past two years, value of such unquoted Stock-in-trade have been taken at rupee one per share as per prudential norms issued by the Reserve Bank of India.

Inventories includes construction work-in-progress in respect of real estate development.

g) Borrowing costs

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use or sale and borrowing costs are being incurred. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale.

h) Provisions, Contingent liabilities and Contingent Assets

Provisions are recognised when there is a present obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and in respect of which reliable estimate can be made. Provisions are not discounted to its present value and are determined based on the best estimate required to settle the obligation at each Balance Sheet date. These are reviewed at each Balance Sheet date and adjusted to reflect the best current estimate.

A present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made, is disclosed as a contingent liability. Contingent liabilities are also disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non -occurrence of one or more uncertain future events not wholly within the control of the Company.

Contingent assets are not recognised in financial statements since this may result in the recognition of income that may never be realised. However, when the realisation of income is virtually certain, then the related asset is not a contingent asset and is recognised.

i) Revenue recognition

The company recognises revenue when the amount of revenue can be reliably measured, it is probable that future economic benefits will flow to the entity. The company bases its estimates on historical results, taking into consideration the type of customer, the type of transaction and specifics of each arrangement. Revenue is measured at the fair value of the consideration received or receivables.

The measurement of contract revenue is affected by a variety of uncertainties that depend on the outcome of future events. The estimates often need to be revised as events occur and uncertainties resolve. Therefore, the amount of contract revenue may increase or decrease from one period to the next.

When the outcome of construction contract can be estimated reliably, contract revenue and contract costs associated with the construction contract shall be recognized as revenue and expenses respectively by reference to the stage of completion of the contract activity at the end of the reporting period. An expected loss on construction contract shall be recognized as an expense immediately.

The recognition of revenue and expenses by reference to the stage of completion of a contract is often referred to as the percentage of completion method. Under this method contract revenue is matched with the contract costs incurred in reaching the stage of completion, resulting in the reporting of revenue, expenses and profit which can be attributed to the proportion of work completed.

Interest Income

Income from interest on deposits, loan and interest bearing securities is recognised on a time proportion basis taking into account the underlying interest rate.

Dividend income

Dividend income is recognised at the time when right to receive the payment is established, which is generally, when the shareholders approve the dividend.

j) Income Tax

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities (including MAT) attributable to temporary differences and to unused tax losses.

Deferred tax is provided using the balance sheet approach on temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purpose at reporting date. Deferred income tax assets and liabilities are measured using tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect of changes in tax rates on deferred income tax assets and liabilities is recognized as income or expense in the period that includes the enactment or the substantive enactment date. A deferred income tax asset is recognized to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilized. The Company offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

Deferred tax assets include Minimum Alternate Tax (MAT) paid in accordance with the tax laws in India, which is likely to give future economic benefits in the form of availability of set off against future income tax liability. MAT is recognised as deferred tax assets in the Balance Sheet when the asset can be measured reliably and it is probable that the future economic benefit associated with the asset will be realised.

k) Cash flow statement

Cash flows are reported using the indirect method, whereby profit for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated.

l) Financial instruments

Financial assets and financial liabilities are recognised when a Company becomes a party to the contractual provisions of the instruments.

Financial Assets

Initial Recognition

All financial assets and liabilities are recognized at fair value on initial recognition, except for

trade receivables which are initially measured at transaction price. Transaction cost that are directly attributable to the acquisition or issue of financial assets and financial liabilities, that are not at fair value through profit or loss, are added to the fair value on initial recognition.

Classification and Subsequent Measurement: Financial Assets

The Company classifies financial assets as subsequently measured at amortised cost, fair value through other comprehensive income ("FVOCI") or fair value through profit or loss ("FVTPL") on the basis of following:

- entity's business model for managing the financial assets and
- contractual cash flow characteristics of the financial asset.

Debt Instruments

Amortised Cost

A financial asset is subsequently measured at amortise cost, if the financial asset is held within a business model, whose objective is to hold the asset in order to collect contractual cash flow and the contractual term of financial asset give rise on specified date to cash flow that are solely payment of principal and interest on principal amount outstanding.

Fair Value through Other Comprehensive Income

Financial assets that are held within a business model whose objective is achieved by both, selling financial assets and collecting contractual cash flows that are solely payments of principal and interest, are subsequently measured at fair value through other comprehensive income. Fair value movements are recognized in the other comprehensive income (OCI). Interest income measured using the EIR method and impairment losses, if any are recognised in the Statement of Profit and Loss. On derecognition, cumulative gain or loss previously recognised in OCI is reclassified from the equity to 'other income' in the Statement of Profit and Loss.

Fair Value through Profit or Loss

A financial asset is classified and measured at fair value through profit or loss unless it is measured at amortised cost or at fair value through OCI.

All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

Equity Instruments

All investments in equity instruments classified under financial assets are measured at fair value. The company in respect of equity investments, which are not held for trading, made an irrevocable election based on its judgment to present in other comprehensive income subsequent changes in the fair value (FVOCI) of such equity instrument. The Company makes such election on an instrument-by-instrument basis. Fair value changes on an equity instrument is recognised as other income in the Statement of Profit and Loss unless the Company has elected to measure such instrument at FVOCI. Fair value changes excluding dividends, on an equity instrument measured at FVOCI are recognised in OCI. Amounts recognised in OCI are not subsequently reclassified to the Statement of Profit and Loss. Dividend income on the investments in equity instruments are recognised as 'other income' in the Statement of Profit and Loss.

Financial Liabilities

Initial Recognition

Financial liabilities are initially measured at the amortised cost unless at initial recognition, they are classified as fair value through profit and loss. In case of trade payables, they are initially recognised at fair value and subsequently, these liabilities are held at amortised cost, using the

effective interest method.

Classification and Subsequent Measurement: Financial liabilities

Financial liabilities are subsequently measured at amortised cost using the EIR method. Financial liabilities carried at fair value through profit or loss are measured at fair value with all changes in fair value recognised in the Statement of Profit and Loss.

Impairment of financial assets

Financial assets, other than those at FVTPL, are assessed for indicators of impairment at the end of each reporting period. The Company recognises a loss allowance for expected credit losses on financial asset. In case of trade receivables, the Company follows the simplified approach permitted by Ind AS 109 – Financial Instruments for recognition of impairment loss allowance. The application of simplified approach does not require the Company to track changes in credit risk. The Company calculates the expected credit losses on trade receivables using a provision matrix on the basis of its historical credit loss experience.

Derecognition of financial instruments

The Company derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the contractual rights to receive the cash flows from the asset.

A financial liability is derecognised when the obligation specified in the contract is discharged, cancelled or expires.

Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously.

m) Fair value measurements

The Company measures financial instruments at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability.
- Or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Company.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole;

Level 1- Quoted (unadjusted) market prices in active markets for identical assets or liabilities.

Level 2- Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.

Level 3- Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

n) Employee benefits

Defined contributions plan

Contributions to defined contribution schemes such as employees' state insurance, labour welfare fund, superannuation scheme, employee pension scheme etc. are charged as an expense based on the amount of contribution required to be made as and when services are rendered by the employees. Company's provident fund contribution, in respect of certain employees, is made to a government administered fund and charged as an expense to the Statement of Profit and Loss. The above benefits are classified as Defined Contribution Schemes as the Company has no further defined obligations beyond the monthly contributions.

Defined benefit plans

The Company's Liabilities on account of Gratuity and Earned Leave on retirement of employees are determined at the end of each financial year on the basis of actuarial valuation certificates obtained from Registered Actuary in accordance with the measurement procedure as per Indian Accounting Standard (Ind AS) -19., 'Employee Benefits' The gratuity liability is covered through a policy taken by a trust established under the group gratuity scheme with Life Insurance Corporation of India (LIC). The costs of providing benefits under these plans are also determined on the basis of actuarial valuation at each year end. Actuarial gains and losses for defined benefit plans are recognized through OCI in the period in which they occur. Re-measurements are not reclassified to profit or loss in subsequent periods.

The Defined Benefit Plan can be short term or Long terms which are defined below:

(i) Short term Employee benefit

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefits obligations in the balance sheet.

(ii) Long term Employee benefits

Compensated absences which are not expected to occur within 12 months after the end of the period in which the employee renders the related services are recognized as a liability at the present value of the defined benefit obligation at the balance sheet date.

o) Segment reporting

An operating segment is a component of the Company that engages in business activities from which it may earn revenues and incur expenses, whose operating results are regularly reviewed by the company's chief operating decision maker to make decisions for which discrete financial information is available. Based on the management approach as defined in Ind AS 108, the chief operating decision maker evaluates the Company's performance and allocates resources based on an analysis of various performance indicators by business segments and geographic segments.

p) Borrowings

Borrowings are measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit or loss over the period of

the borrowings using effective interest method. Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalised as a prepayment for liquidity services and amortised over the period of the facility to which it relates.

Borrowings are classified as current liabilities unless the company has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period. Where there is a breach of a material provision of a long-term loan arrangement on or before the end of the reporting period with the effect that the liability becomes payable on demand on the reporting date, the entity does not classify the liability as current, if the lender agreed, after the reporting period and before the approval of the financial statements for issue, not to demand payment as a consequence of the breach.

q) Earnings per share

Basic earnings per share is computed by dividing the net profit for the period attributable to the equity shareholders of the Company by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period and for all periods presented is adjusted for events, such as bonus shares, other than the conversion of potential equity shares that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period is adjusted for the effects of all dilutive potential equity shares.

r) Investment in subsidiary

Investment in subsidiary is shown at deemed cost. Further where the carrying amount of an investment is greater than its estimated recoverable amount, it is written down immediately to its recoverable amount and the difference is transferred to the Statement of Profit and Loss, if any. On disposal of investment, the difference between the net disposal proceeds and the carrying amount is charged or credited to the Statement of profit and loss, if any.

s) Business Combinations

Business combinations have been accounted for using the acquisition method under the provisions of Ind AS 103, Business Combinations. The Cost of acquisition is measured at the fair value of the assets transferred, equity instruments issued and liabilities incurred or assumed at the date of acquisition, which is the date on which control is transferred to the Company. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair value on the date of acquisition.

t) Recent accounting pronouncements

Ind AS 12 - Income Taxes: The amendments clarify that an entity needs to consider whether tax law restricts the sources of taxable profits against which it may make deductions on the reversal of that deductible temporary difference. Furthermore, the amendments provide guidance on how an entity should determine future taxable profits and explain the circumstances in which taxable profit may include the recovery of some assets for more than their carrying amount.

Entities are required to apply the amendments retrospectively. However, on initial application of the amendments, the change in the opening equity of the earliest comparative period may be recognised in opening retained earnings (or in another component of equity, as appropriate), without allocating the change between opening retained earnings and other components of equity. Entities applying this relief must disclose that fact.

These amendments are effective for annual periods beginning on or after 1 April 2018. These amendments are not expected to have any impact on the Company as the Company has no deductible temporary differences or assets that are in the scope of the amendments.

Ind AS 115- Revenue from Contract with Customers: On March 28, 2018, Ministry of Corporate Affairs ("MCA") has notified the Ind AS 115, Revenue from Contract with Customers. The core principle of the new standard is that an entity should recognise revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Further, the new standard requires enhanced disclosures about the nature, amount, timing and uncertainty of revenue and cash flows arising from the entity's contracts with customers.

The standard permits two possible methods of transition:

Retrospective approach - Under this approach the standard will be applied retrospectively to each prior reporting period presented in accordance with Ind AS 8- Accounting Policies, Changes in Accounting Estimates and Errors;

Retrospectively with cumulative effect of initially applying the standard recognized at the date of initial application (Cumulative catch - up approach) The effective date for adoption of Ind AS 115 is financial periods beginning on or after April 1, 2018.

The Company will adopt the standard on April 1, 2018 by using the cumulative catch-up transition method and accordingly comparatives for the year ending or ended March 31, 2018 will not be retrospectively adjusted. The effect on adoption of Ind AS 115 is expected to be insignificant.

Note : 32 Significant accounting judgements, estimates and assumptions

The preparation of the Company's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

Judgements

In the process of applying the Company's accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognised in the financial statements:

Fair value measurement of financial instruments

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using other valuation techniques. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial

Impairment of non-financial assets

Impairment exists when the carrying value of an asset or cash generating unit exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. The fair value less costs of disposal calculation is based on available data from binding sales transactions, conducted at arm's length, for similar assets or observable market prices less incremental costs for disposing of the asset. The value in use calculation is based on a DCF model. The cash flows are derived from the budget for the next five years and do not include restructuring activities that the Company is not yet committed to or significant future investments that will enhance the asset's performance of the CGU being tested. The recoverable amount is sensitive to the discount rate used for the DCF model as well as the expected future cash-inflows and the growth rate used for extrapolation purposes.

Level 1 : Level 1 hierarchy includes financial instruments measured using quoted prices. This includes listed equity instruments that have quoted price. The fair value of all equity instruments which are traded in the stock exchanges is valued using the closing price as at the reporting period.

Level 2 : The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in Level 2.

Level 3 : If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities, contingent consideration and indemnification asset included in level 3.

NOTES ON FINANCIAL STATEMENTS FOR THE YEAR ENDED 31st MARCH, 2018

Note : 36 Financial risk management objectives and policies

The Company's principal financial liabilities comprise loans and borrowings and other payables. The main purpose of these financial liabilities is to finance the Company's operations and to support its operations. The Company's financial assets include Investment in equity instruments, Investment in preference shares, Investment in debentures, trade and other receivables, and cash & cash equivalents that derive directly from its operations.

The Company is exposed to market risk, credit risk and liquidity risk. The company's senior management oversees the management of these risks. The company's senior management is supported by a financial risk committee that advises on financial risks and the appropriate financial risk governance framework for the Company. This financial risk committee provides assurance to the Company's senior management that the Company's financial risk activities are governed by appropriate policies and procedure and that financial risks are identified, measured and managed in accordance with the Company's policies and risk objectives. The Board of Directors reviews and agrees policies for managing each risk, which are summarised as below:

(A) Market risk

"Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risks. The value of a financial instrument may change as a result of changes in the interest rates, equity price fluctuations and other market changes. Future specific market movements cannot be normally predicted with reasonable accuracy.

i) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's long term debt obligations with fixed interest rates. The Company is carry its borrowings primarily at fixed rate.

Particulars	31st March 2018	31st March 2017	1st April 2016
Fixed rate borrowings	5,176,695	2,095,860	745,034

(ii) Equity Price risk

Equity Price Risk is related to the change in market reference price of the investments in equity securities. The fair value of Company's investment in quoted equity securities as at March 31, 2018, 2017 and April 1, 2016 was ₹ 13,51,60,236, ₹10,79,52,770 and ₹10,06,00,553 respectively. A 10% change in equity price as at March 31, 2018, 2017 and April 1, 2016 would result in an impact of ₹ 1,35,16,023, ₹ 1,07,95,277 and ₹ 1,06,00,055, respectively."(Note: The impact is indicated on equity before consequential tax impact, if any).

B) Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument leading to a financial loss. The Company is exposed to credit risk from its financing activities, investment in mutual funds and other financial instruments.

(i) Trade receivables

Customer credit risk is managed by each business location subject to the Company's established policy, procedures and control relating to customer credit risk management. Credit quality of a customer is assessed and individual credit limits are defined in accordance with the assessment both in terms of number of days and amount. Any Credit risk is curtailed with arrangements with third parties .

An impairment analysis is performed at each reporting date on an individual basis for major clients. In addition, a large number of minor receivables are grouped into homogenous groups and assessed for impairment collectively. The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets disclosed in Note 09. The Company does not hold collateral as security.

(ii) Financial instruments and cash deposits

Credit risk from balances with banks and financial institutions is managed by the Company's treasury department in accordance with the Company's policy. Investment of surplus funds are made only with approved counterparties . The Company's maximum exposure to credit risk for the components of the balance sheet at 31 March 2017 and 31 March 2016 is the carrying value as illustrated in Note 35.

(C) Liquidity risk

Liquidity risk refer to the risk that the Company may not able to meet its financial obligations. The objective of liquidity risk management is to maintain sufficient liquidity and ensure that funds are available for use as per the requirement. . The Company maintains its surplus funds, if any, in deposits / balances which carry low market risk. The Company believes that the working capital is sufficient to meet its current requirements. Accordingly, no liquidity risk is perceived.

Note : 39 First time adoption of Ind AS

These standalone financial statements of Smifs Capital Market Ltd. For the year ended March 31, 2018 have been prepared in accordance with Ind AS. For the purposes of transition to Ind-AS, the company has followed the guidance prescribed in Ind AS 101 First-Time Adoption of Indian Accounting Standards, with April 1, 2016 as the transition date and IGAAP as the previous GAAP.

The transition to Ind-AS has resulted in changes in the presentation of the financial statements, disclosures in the notes thereto and accounting policies and principles. The accounting policies set out have been applied in preparing the standalone financial statements for the year end 31st March, 2018 and the comparative information.

SMIFS CAPITAL MARKETS LIMITED

NOTES ON FINANCIAL STATEMENTS FOR THE YEAR ENDED 31st MARCH, 2018

Exemptions and exceptions availed

Set out below are the applicable Ind AS 101 optional exemptions and mandatory exceptions applied in the transition from previous GAAP to Ind AS.

a) Ind AS Optional exemptions

Deemed Cost

Ind AS 101 permits a first-time adopter to elect to continue with the carrying value for all of its property, plant and equipment as recognised in the financial statements as at the date of transition to Ind AS, measured as per the previous GAAP and use that as its deemed cost as at the date of transition after making necessary adjustments for de-commissioning liabilities. This exemption can also be used for intangible assets covered by Ind AS 38 Intangible Assets.

Accordingly, the company elected to measure all of its property, plant and equipment and other intangible assets at their previous GAAP carrying value.

b) Ind AS Mandatory exceptions

Designation of previously recognised financial instruments

Ind AS 101 permits entity to designate particular equity investments (other than equity investments in subsidiaries, associates and joint arrangements) as at fair value through other comprehensive income (FVTOCI) based on facts and circumstances at the date of transition to Ind AS (rather than at initial recognition). Other equity investments are classified in fair value through profit or loss (FVTPL).

Defined benefit liabilities

Both under Indian GAAP and Ind AS, the Company recognised costs related to its post-employment defined benefit plan on an actuarial basis. The entire cost, including actuarial gains and losses, are charged to profit or loss. Under Ind AS, remeasurements [comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets excluding amounts included in net interest on the net defined benefit liability] are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI. Remeasurement gains/ losses on defined benefit plans has been recognized in the OCI net of tax.

c) Reconciliations between previous GAAP and Ind AS

Ind AS 101 requires an entity to reconcile equity, total comprehensive income and cash flows for prior periods. The following tables represent the reconciliations from previous GAAP to Ind AS.

Disclosure required by Ind AS 101 - First time adoption of Ind AS

NOTES ON FINANCIAL STATEMENTS FOR THE YEAR ENDED 31st MARCH, 2018

Adjustment to statement of cash flow statement

There were no material differences between the Statement of Cash Flows presented under Ind AS and the previous GAAP.

Notes to first-time adoption:

Note : 1 Non Current Investments

Under previous GAAP, non-current investments were stated at cost less any impairment that was other than temporary. Under Ind AS, financial assets in equity instruments other than investments in subsidiaries have been classified as Fair Value Through Other Comprehensive Income (FVTOCI). At the date of transition to Ind AS, difference between the fair value of investment and IGAAP carrying amount has been recognised in Retained Earnings. Investments in Mutual funds has been classified as Fair Value through Profit and Loss.

Note : 2 Loans/Other Financial assets/ Other Current assets

As per Schedule III, Security Deposits are to be classified under Loans or Other Non-current/Current Assets respectively. Accordingly, Security Deposits which are financial in nature are classified under Loans and other deposits are classified under Non-current/ Current Assets respectively.

Under IGAAP, Loans and Advances were shown together under Loans and Advances. However, as per Schedule III, Advances are classified under other Non-current/Current Assets.

Note : 3 Impairment of Financial Assets

Impairment for receivables from leased assets and trade receivable is measured in Ind AS based on life time expected credit losses. Expected credit loss allowance is measured based on historical credit loss experience, defaults, bankruptcy and forward looking information where relevant adjusted for probability of recovery. Under Previous GAAP, provision for trade receivable is measured based on factors such as age of receivables, defaults etc. adjusted for probability of recovery.

Note : 4 Defined benefit liabilities

Both under Indian GAAP and Ind AS, the Company recognised costs related to its post-employment defined benefit plan on an actuarial basis. The entire cost, including actuarial gains and losses, are charged to profit or loss. Under Ind AS, remeasurements [comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets excluding amounts included in net interest on the net defined benefit liability] are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI.

Note : 5 Deferred Tax

Under Previous GAAP, deferred taxes were recognised for the tax effect of timing differences between accounting profit and taxable profit for the year using the income statement approach. Under Ind AS, deferred taxes are recognised using the balance sheet for future tax consequences of temporary differences between the carrying value of assets and liabilities and their respective tax bases. The above difference, together with the consequential tax impact of the other Ind AS transitional adjustments lead to temporary differences. Deferred tax adjustments are recognised in correlation to the underlying transaction either in retained earnings or through other comprehensive income.

INDEPENDENT AUDITORS' REPORT

To the Members of SMIFS CAPITAL MARKETS LIMITED

Report on the Consolidated Ind AS Financial Statements

We have audited the accompanying consolidated Ind AS financial statements of SMIFS Capital Markets Ltd (hereinafter referred to as "the Holding Company"), its subsidiary (the Holding Company and its subsidiary together referred to as "the Group") comprising the Consolidated Balance Sheet as at 31st March 2018, the Consolidated Statement of Profit and Loss (including Other Comprehensive income), the Consolidated Cash Flow Statement and the Consolidated Statement of Changes in Equity for the year then ended, and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "the consolidated Ind AS financial statements").

Management's Responsibility for the Consolidated Ind AS Financial Statements

The Holding Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these consolidated Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, consolidated cash flows and consolidated statement of changes in equity of the Group in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act, read with relevant rules issued thereunder. The respective Board of Directors of the Companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the group and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the respective standalone Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the preparation of the consolidated Ind AS financial statements by the Board of Directors of the Holding Company, as aforesaid.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated Ind AS financial statements based on our audit.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated Ind AS financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the holding Company's preparation of the consolidated Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Holding Company's Board of Directors, as well as evaluating the overall presentation of the consolidated Ind AS financial statements.

We believe that the audit evidence obtained by us and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the consolidated Ind AS financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of reports of the other auditors on standalone or consolidated financial statements, as applicable, and on the other financial information of the subsidiary, the aforesaid consolidated Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including the Ind AS, of the consolidated financial position of the Group as at 31st March, 2018, and their consolidated financial performance (including other comprehensive income), their consolidated cash flows and consolidated statement of changes in equity for the year ended on that date.

Other Matters

We did not audit the financial statements/financial information of subsidiary whose financial statements reflect total assets of Rs.777.85 lakhs as at 31st March 2018, total revenue of Rs.18.42 lakhs and net cash outflow of Rs. 0.26 lakhs for the year ended on that date, as considered in the consolidated Ind AS financial statements. The Consolidated Ind AS financial statements also include the Group's share of net profit of Rs. 248.41 lakhs for the year ended 31st March 2018, as considered in the consolidated Ind AS financial statements, in respect of a subsidiary, whose financial statements have not been audited by us. These financial statements have been audited by other auditors whose reports have been furnished to us by the Management and our opinion on the consolidated Ind AS financial statements, in so far as it relates to the amounts and disclosures included in respect of the subsidiary, and our report in terms of sub-sections (3) and (11) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiary, is based solely on the reports of the other auditors.

Our opinion on the consolidated Ind AS financial statements, and our report on other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors and the financial statements certified by the Management.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143 (3) of the Act, based on our audit and the other financial information of subsidiary as noted in the Other Matters paragraph, we report to the extent applicable, that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated Ind AS financial statements.
 - (b) In our opinion proper books of account as required by law have been kept by the group so far as it appears from our examination of those books;
 - (c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss (including Other Comprehensive income), the Consolidated Cash Flow Statement and the Consolidated Statement of Changes in Equity dealt with by this report are in agreement with the books of account maintained for the purpose of preparation of consolidated financial statements;
 - (d) In our opinion, the aforesaid consolidated Ind AS financial statements comply with the Indian Accounting Standards specified under Section 133 of the Act, read with relevant rules issued thereunder;
 - (e) On the basis of the written representations received from the directors of the Holding Company as on 31st March 2018 taken on record by the Board of Directors of the Holding Company, and the reports of the statutory auditors of its subsidiary, none of the directors of the Group Companies are disqualified as on 31st March 2018 from being appointed as a director in terms of Section 164 (2) of the Act.
 - (f) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us and based on the consideration of reports of the other auditors on standalone or consolidated financial statements, as applicable, as also the other financial information of the subsidiary as noted in the Other Matters paragraph:
 - i. The Consolidated Ind AS financial statements disclose the impact of pending litigations on the consolidated financial position of the Group. (Refer Note 34 to the consolidated Ind AS financial statements)
 - ii. The Group did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
 - iii. There has been no delay in transferring amounts, which were required to be transferred to the Investor education and Protection Fund by the Group.
 - (g) With respect to the adequacy of the internal financial controls over financial reporting of the Group and the operating effectiveness of such controls, refer to our separate report in "Annexure A".

ANNEXURE - A TO THE INDEPENDENT AUDITORS' REPORT

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the consolidated Ind AS financial statements of the Company as of and for the year ended 31st March 2018, we have audited the internal financial controls over financial reporting of SMIFS Capital Markets Ltd("the Holding Company"), which is companies incorporated in India, as of that date. We have not audited the internal financial controls of its subsidiary company, which is company incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

The Respective Board of Directors of the Holding Company and its subsidiary company which is company incorporated in India, are responsible for establishing and maintaining internal financial controls. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Group internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditor of the subsidiary companies which is company incorporated in India, in terms of their reports referred to in the Other Matters paragraph, is sufficient and appropriate to provide a basis for our audit opinion on the Group internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of the respective standalone Ind AS financial statements in accordance with generally accepted accounting principles, including Ind AS and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely

detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Other Matters

Our aforesaid report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting insofar as it relates to its subsidiary, which is a company incorporated in India, is based solely on the corresponding report of the auditor of such company incorporated in India.

Opinion

In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of the reports of the other auditors referred to in the Other Matters paragraph above, the Holding Company and its subsidiary have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March, 2018, based on the internal control over financial reporting criteria established by the Company.

Our opinion is not modified in respect of the above matters.

SMIFS CAPITAL MARKETS LIMITED

NOTES ON CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31st MARCH, 2018

Corporate Information

The Consolidated financial statements comprise financial statements of SMIFS Capital Markets Ltd (the "Company") and its subsidiary (collectively, "the Group") for the year ended 31st March 2018. The Company is a public limited company incorporated and domiciled in India and has its registered office at Vaibhav, 4F, 4, Lee Road, Kolkata - 700 020, India. The Company is listed on the BSE Limited and Calcutta Stock Exchange Limited. The company is engaged mainly in merchant banking and trading in government securities and shares.

The financial statements for the year ended March 31, 2018 were approved by the Board of Directors and authorised for issue on 30th May 2018.

Note: 1 Significant accounting policies

a) Statement of Compliance

The financial statements comply in all material aspects with Indian Accounting Standards (Ind AS) notified under the companies (Indian Accounting Standards) Rules, 2015 as amended by companies (Indian Accounting Standards) (Amendment) Rules, 2016, the relevant provisions of Companies Act, 2013 ("the Act")

The financial statements up to year ended 31 March 2017 were prepared in accordance with the accounting standards notified under the section 133 of the Companies Act, 2013 read together with Rule 7 of Companies (Accounts) rule 2014, (Indian GAAP).

The transition from Previous GAAP to Ind AS has been accounted for in accordance with Ind AS 101 "First Time Adoption of Indian Accounting Standard" with April 1, 2016 being the transition date.

In accordance with Ind AS 101 "First Time Adoption of Indian Accounting Standard" the Group has presented a reconciliation from the presentation of financial statements under accounting standards notified under the Companies Accounting Standard Rules, 2006 i.e. "Previous GAAP" to Ind AS of total equity as at April 1, 2016 and March 31, 2017, total comprehensive income and cash flow for the year ended March 31, 2017.

The Financial statements are presented in Indian Rupees except otherwise indicated.

b) Basis of preparation of financial statements

The Consolidated financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) 110- "Consolidated Financial statements" issued by the Institute of Chartered Accountants of India.

The Financial Statements of the Group have been prepared on historical cost convention under accrual method of accounting and as a going concern concept except for certain assets and liabilities which are measured at fair values as required by Ind AS.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

All assets and liabilities have been classified as per the Group's normal operating cycle and the other criteria as set out in the Division II of Schedule III to the Companies Act, 2013. The Group has ascertained its operating cycle as 12 months for the purpose of current and noncurrent classification of assets and liabilities.

SMIFS CAPITAL MARKETS LIMITED

NOTES ON CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31st MARCH, 2018

c) Basis of Consolidation

The consolidated financial statements relate to the SMIFS Capital Markets Limited ('the Company') and its wholly owned subsidiary Company.

The financial statements of the Company and its subsidiary Company have been combined on a line-by-line basis by adding together the book values of like items of assets, liabilities, incomes and expenses, after fully eliminating inter-company balances and transactions including unrealized profits or losses.

The consolidated financial statements are prepared by adopting uniform accounting policies for like transactions and events in similar circumstances and are presented to the extent possible, in the same manner as the Company's separate financial statements.

d) Use of estimates

In preparation of the financial statements, the Group makes judgements, estimates and assumptions about the carrying values of assets and liabilities that are not readily apparent from other sources. The estimates and the associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and the underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised, and future periods affected.

e) Property, plant and equipment

Property, plant and equipment are stated at cost less accumulated depreciation/amortization and impairment, if any. Freehold land is disclosed at cost less impairment, if any. Cost comprises of purchase price and directly attributable cost of acquisition/ bringing the asset to its working condition for its intended use (net of credit availed, if any). Capital work in progress, plant and equipment is stated at cost, net of accumulated depreciation and accumulated impairment losses, if any.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the entity and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

On transition to Ind AS, the entity has elected to continue with the carrying value of all of its property, plant and equipment recognised as at 1st April 2016 measured as per the previous GAAP and use that carrying value as the deemed cost of the property, plant and equipment.

An item of property, plant and equipment and any significant part initially recognised is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the income statement when the asset is derecognized.

SMIFS CAPITAL MARKETS LIMITED

NOTES ON CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31st MARCH, 2018

Depreciation

Depreciation is the systematic allocation of the depreciable amount of PPE over its useful life and is provided on a written down value basis over the useful lives as prescribed under Schedule II to the Companies Act, 2013.

Depreciable amount for PPE is the cost of PPE less its estimated residual value. The useful life of PPE is the period over which PPE is expected to be available for use by the Group, or the number of production or similar units expected to be obtained from the asset by the Group.

Depreciation on additions is provided on a pro-rata basis from the month of installation or acquisition. Depreciation on deductions/disposals is provided on a pro-rata basis up to the month preceding the month of deduction/disposal.

f) Impairment of Non-financial assets

The Group assesses at each reporting date whether there is any indication the any property, plant and equipment and intangible assets or group of assets, called cash generating unit may be impaired. If any such indication exists the Group estimates the recoverable amount of the asset. If such recoverable amount of the asset or the recoverable amount of the cash generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognised in the Statement of Profit and Loss. If at the balance sheet date there is an indication that if a previously assessed impairment loss no longer exists, the recoverable amount is reassessed, and the asset is reflected at the recoverable amount.

g) Inventories

Inventories consisting of shares and securities has been individually valued script wise at lower of cost and market rate, in case they are quoted. Other stock-in-trade are valued at cost/ net asset value whichever is lower or where balance sheet of investee Company is not available for past two years, value of such unquoted Stock-in-trade have been taken at rupee one per share as per prudential norms issued by the Reserve Bank of India.

h) Borrowing costs

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use or sale and borrowing costs are being incurred. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale.

i) Provisions, Contingent liabilities and Contingent Assets

Provisions are recognised when there is a present obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and in respect of which reliable estimate can be made. Provisions are not discounted to its present value and are determined based on the best estimate required to settle the obligation at each Balance Sheet date. These are reviewed at each Balance Sheet date and adjusted to reflect the best current estimate.

SMIFS CAPITAL MARKETS LIMITED

NOTES ON CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31st MARCH, 2018

A present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made, is disclosed as a contingent liability. Contingent liabilities are also disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non -occurrence of one or more uncertain future events not wholly within the control of the Group.

Contingent assets are not recognised in financial statements since this may result in the recognition of income that may never be realised. However, when the realisation of income is virtually certain, then the related asset is not a contingent asset and is recognised.

j) Revenue recognition

The Group recognises revenue when the amount of revenue can be reliably measured, it is probable that future economic benefits will flow to the entity. The Group bases its estimates on historical results, taking into consideration the type of customer, the type of transaction and specifics of each arrangement. Revenue is measured at the fair value of the consideration received or receivables.

The measurement of contract revenue is affected by a variety of uncertainties that depend on the outcome of future events. The estimates often need to be revised as events occur and uncertainties resolve. Therefore, the amount of contract revenue may increase or decrease from one period to the next.

When the outcome of construction contract can be estimated reliably, contract revenue and contract costs associated with the construction contract shall be recognized as revenue and expenses respectively by reference to the stage of completion of the contract activity at the end of the reporting period. An expected loss on construction contract shall be recognized as an expense immediately.

The recognition of revenue and expenses by reference to the stage of completion of a contract is often referred to as the percentage of completion method. Under this method contract revenue is matched with the contract costs incurred in reaching the stage of completion, resulting in the reporting of revenue, expenses and profit which can be attributed to the proportion of work completed.

Interest Income

Income from interest on deposits, loan and interest bearing securities is recognised on a time proportion basis taking into account the underlying interest rate.

Dividend income

Dividend income is recognised at the time when right to receive the payment is established, which is generally, when the shareholders approve the dividend.

k) Income Tax

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities (including MAT) attributable to temporary differences and to unused tax losses.

SMIFS CAPITAL MARKETS LIMITED

NOTES ON CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31st MARCH, 2018

Deferred tax is provided using the balance sheet approach on temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purpose at reporting date. Deferred income tax assets and liabilities are measured using tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect of changes in tax rates on deferred income tax assets and liabilities is recognized as income or expense in the period that includes the enactment or the substantive enactment date. A deferred income tax asset is recognized to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilized. The Group offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

Deferred tax assets include Minimum Alternate Tax (MAT) paid in accordance with the tax laws in India, which is likely to give future economic benefits in the form of availability of set off against future income tax liability. MAT is recognised as deferred tax assets in the Balance Sheet when the asset can be measured reliably and it is probable that the future economic benefit associated with the asset will be realised.

l) Cash flow statement

Cash flows are reported using the indirect method, whereby profit for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Group are segregated.

m) Financial instruments

Financial assets and financial liabilities are recognised when a Group becomes a party to the contractual provisions of the instruments.

Financial Assets

Initial Recognition

All financial assets and liabilities are recognized at fair value on initial recognition, except for trade receivables which are initially measured at transaction price. Transaction cost that are directly attributable to the acquisition or issue of financial assets and financial liabilities that are not at fair value through profit or loss are added to the fair value on initial recognition

Classification and Subsequent Measurement: Financial Assets

The Group classifies financial assets as subsequently measured at amortised cost, fair value through other comprehensive income ("FVOCI") or fair value through profit or loss ("FVTPL") on the basis of following:

- entity's business model for managing the financial assets and
- contractual cash flow characteristics of the financial asset.

SMIFS CAPITAL MARKETS LIMITED

NOTES ON CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31st MARCH, 2018

Debt Instruments

Amortised Cost

A financial asset is subsequently measured at amortised cost, if the financial asset is held within a business model, whose objective is to hold the asset in order to collect contractual cash flow and the contractual term of financial asset give rise on specified date to cash flow that are solely payment of principal and interest on principal amount outstanding.

Fair Value through Other Comprehensive Income

Financial assets that are held within a business model whose objective is achieved by both, selling financial assets and collecting contractual cash flows that are solely payments of principal and interest, are subsequently measured at fair value through other comprehensive income. Fair value movements are recognized in the other comprehensive income (OCI). Interest income measured using the EIR method and impairment losses, if any are recognised in the Statement of Profit and Loss. On derecognition, cumulative gain or loss previously recognised in OCI is reclassified from the equity to 'other income' in the Statement of Profit and Loss.

Fair Value through Profit or Loss

A financial asset is classified and measured at fair value through profit or loss unless it is measured at amortised cost or at fair value through OCI.

All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

Equity Instruments

All investments in equity instruments classified under financial assets are measured at fair value. The Group, in respect of equity investments, which are not held for trading, made an irrevocable election based on its judgment to present in other comprehensive income subsequent changes in the fair value (FVOCI) of such equity instrument. The Group makes such election on an instrument-by-instrument basis. Fair value changes on an equity instrument is recognised as other income in the Statement of Profit and Loss unless the Group has elected to measure such instrument at FVOCI. Fair value changes excluding dividends, on an equity instrument measured at FVOCI are recognised in OCI. Amounts recognised in OCI are not subsequently reclassified to the Statement of Profit and Loss. Dividend income on the investments in equity instruments are recognised as 'other income' in the Statement of Profit and Loss.

Financial Liabilities

Initial Recognition

Financial liabilities are initially measured at the amortised cost unless at initial recognition, they are classified as fair value through profit and loss. In case of trade payables, they are initially recognised at fair value and subsequently, these liabilities are held at amortised cost, using the effective interest method.

Classification and Subsequent Measurement: Financial liabilities

Financial liabilities are subsequently measured at amortised cost using the EIR method. Financial liabilities carried at fair value through profit or loss are measured at fair value with all changes in fair value recognised in the Statement of Profit and Loss.

SMIFS CAPITAL MARKETS LIMITED

NOTES ON CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31st MARCH, 2018

Impairment of financial assets

Financial assets, other than those at FVTPL, are assessed for indicators of impairment at the end of each reporting period. The Group recognises a loss allowance for expected credit losses on financial asset. In case of trade receivables, the Group follows the simplified approach permitted by Ind AS 109 – Financial Instruments for recognition of impairment loss allowance. The application of simplified approach does not require the Group to track changes in credit risk. The Group calculates the expected credit losses on trade receivables using a provision matrix on the basis of its historical credit loss experience.

Derecognition of financial instruments

The Group derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the contractual rights to receive the cash flows from the asset.

A financial liability is derecognised when the obligation specified in the contract is discharged, cancelled or expires.

Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously.

n) Fair value measurements

The Group measures financial instruments at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability.

Or

- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Group.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole;

Level 1- Quoted (unadjusted) market prices in active markets for identical assets or liabilities.

Level 2- Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.

Level 3- Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

SMIFS CAPITAL MARKETS LIMITED

NOTES ON CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31st MARCH, 2018

o) Employee benefits

Defined contributions plan

Contributions to defined contribution schemes such as employees' state insurance, labour welfare fund, superannuation scheme, employee pension scheme etc. are charged as an expense based on the amount of contribution required to be made as and when services are rendered by the employees. Group's provident fund contribution, in respect of certain employees, is made to a government administered fund and charged as an expense to the Statement of Profit and Loss. The above benefits are classified as Defined Contribution Schemes as the Group has no further defined obligations beyond the monthly contributions.

Defined benefit plans

The Group's Liabilities on account of Gratuity and Earned Leave on retirement of employees are determined at the end of each financial year on the basis of actuarial valuation certificates obtained from Registered Actuary in accordance with the measurement procedure as per Indian Accounting Standard (Ind AS) -19., 'Employee Benefits' The gratuity liability is covered through a policy taken by a trust established under the group gratuity scheme with Life Insurance Corporation of India (LIC). The costs of providing benefits under these plans are also determined on the basis of actuarial valuation at each year end. Actuarial gains and losses for defined benefit plans are recognized through OCI in the period in which they occur. Re-measurements are not reclassified to profit or loss in subsequent periods.

The Defined Benefit Plan can be short term or Long terms which are defined below:

(i) Short term Employee benefit

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefits obligations in the balance sheet.

(ii) Long term Employee benefits

Compensated absences which are not expected to occur within 12 months after the end of the period in which the employee renders the related services are recognized as a liability at the present value of the defined benefit obligation at the balance sheet date.

p) Segment reporting

An operating segment is a component of the Group that engages in business activities from which it may earn revenues and incur expenses, whose operating results are regularly reviewed by the Group's chief operating decision maker to make decisions for which discrete financial information is available. Based on the management approach as defined in Ind AS 108, the chief operating decision maker evaluates the Group's performance and allocates resources based on an analysis of various performance indicators by business segments and geographic segments.

SMIFS CAPITAL MARKETS LIMITED

NOTES ON CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31st MARCH, 2018

q) Borrowings

Borrowings are measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit or loss over the period of the borrowings using effective interest method. Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalised as a prepayment for liquidity services and amortised over the period of the facility to which it relates.

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period. Where there is a breach of a material provision of a long-term loan arrangement on or before the end of the reporting period with the effect that the liability becomes payable on demand on the reporting date, the entity does not classify the liability as current, if the lender agreed, after the reporting period and before the approval of the financial statements for issue, not to demand payment as a consequence of the breach.

r) Earnings per share

Basic earnings per share is computed by dividing the net profit for the period attributable to the equity shareholders of the Company by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period and for all periods presented is adjusted for events, such as bonus shares, other than the conversion of potential equity shares that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period is adjusted for the effects of all dilutive potential equity shares.

s) Business Combinations

Business combinations have been accounted for using the acquisition method under the provisions of Ind AS 103, Business Combinations. The Cost of acquisition is measured at the fair value of the assets transferred, equity instruments issued and liabilities incurred or assumed at the date of acquisition, which is the date on which control is transferred to the Group. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair value on the date of acquisition.

t) Recent accounting pronouncements

Ind AS 12 - Income Taxes: The amendments clarify that an entity needs to consider whether tax law restricts the sources of taxable profits against which it may make deductions on the reversal of that deductible temporary difference. Furthermore, the amendments provide guidance on how an entity should determine future taxable profits and explain the circumstances in which taxable profit may include the recovery of some assets for more than their carrying amount.

Entities are required to apply the amendments retrospectively. However, on initial application of the amendments, the change in the opening equity of the earliest comparative period may be recognised in opening retained earnings (or in another component of equity, as appropriate),

SMIFS CAPITAL MARKETS LIMITED

NOTES ON CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31st MARCH, 2018

without allocating the change between opening retained earnings and other components of equity. Entities applying this relief must disclose that fact.

These amendments are effective for annual periods beginning on or after 1 April 2018. These amendments are not expected to have any impact on the Group as the Group has no deductible temporary differences or assets that are in the scope of the amendments.

Ind AS 115- Revenue from Contract with Customers: On March 28, 2018, Ministry of Corporate Affairs ("MCA") has notified the Ind AS 115, Revenue from Contract with Customers. The core principle of the new standard is that an entity should recognise revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Further, the new standard requires enhanced disclosures about the nature, amount, timing and uncertainty of revenue and cash flows arising from the entity's contracts with customers.

The standard permits two possible methods of transition:

Retrospective approach - Under this approach the standard will be applied retrospectively to each prior reporting period presented in accordance with Ind AS 8- Accounting Policies, Changes in Accounting Estimates and Errors;

Retrospectively with cumulative effect of initially applying the standard recognized at the date of initial application (Cumulative catch - up approach) The effective date for adoption of Ind AS 115 is financial periods beginning on or after April 1, 2018.

The Company will adopt the standard on April 1, 2018 by using the cumulative catch-up transition method and accordingly comparatives for the year ending or ended March 31, 2018 will not be retrospectively adjusted. The effect on adoption of Ind AS 115 is expected to be insignificant.

Note : 33 Significant accounting judgements, estimates and assumptions

The preparation of the Group's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

Judgements

In the process of applying the Group's accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognised in the financial statements:

Fair value measurement of financial instruments

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using other valuation techniques. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial.

Impairment of non-financial assets

Impairment exists when the carrying value of an asset or cash generating unit exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. The fair value less costs of disposal calculation is based on available data from binding sales transactions, conducted at arm's length, for similar assets or observable market prices less incremental costs for disposing of the asset. The value in use calculation is based on a DCF model. The cash flows are derived from the budget for the next five years and do not include restructuring activities that the Company is not yet committed to or significant future investments that will enhance the asset's performance of the CGU being tested. The recoverable amount is sensitive to the discount rate used for the DCF model as well as the expected future cash-inflows and the growth rate used for extrapolation purposes.

- Sale Tax demand net of payment under appeal is ₹ 91,125/- (91,125/-)
- Demand under Employees' State Insurance under appeal is ₹ 142,274/- (142,274/-)

The Holding company had applied to the Government of West Bengal for an exemption, from the provisions of Employees State Insurance Act, 1948, since the medical facilities/ benefits provided by the Company to the employees are superior to those covered by E.S.I Scheme. Government of West Bengal - Labour Department in consultation with Employees State Insurance Corporation had granted exemption for one year effective from 25th November, 1997. Prayer seeking exemption on permanent basis with retrospective effect is pending with the Government of West Bengal. The Employee State Insurance Corporation has raised demand for the period from June 1991 to 24th November 1997 amounting to ₹142,274/- . The Company has filed a petition against the demand before E.S.I Court and the same has been partly heard.

Level 1 : Level 1 hierarchy includes financial instruments measured using quoted prices. This includes listed equity instruments that have quoted price. The fair value of all equity instruments which are traded in the stock exchanges is valued using the closing price as at the reporting period.

Level 2 : The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in Level 2.

Level 3 : If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities, contingent consideration and indemnification asset included in level 3.

NOTES ON CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31st MARCH, 2018

Amount in ₹

Note : 37 Financial risk management objectives and policies

The Group principal financial liabilities comprise loans and borrowings and other payables. The main purpose of these financial liabilities is to finance the Group operations and to support its operations. The Group financial assets include Investment in equity instruments, Investment in preference shares, Investment in debentures, trade and other receivables, and cash & cash equivalents that derive directly from its operations.

The Group is exposed to market risk, credit risk and liquidity risk. The Group senior management oversees the management of these risks. The Group senior management is supported by a financial risk committee that advises on financial risks and the appropriate financial risk governance framework for the Group. This financial risk committee provides assurance to the Group senior management that the Group financial risk activities are governed by appropriate policies and procedure and that financial risks are identified, measured and managed in accordance with the Group policies and risk objectives. The Board of Directors reviews and agrees policies for managing each risk, which are summarised as below:

(A) Market risk

"Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risks. The value of a financial instrument may change as a result of changes in the interest rates, equity price fluctuations and other market changes. Future specific market movements cannot be normally predicted with reasonable accuracy.

i) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group exposure to the risk of changes in market interest rates relates primarily to the Group long term debt obligations with fixed interest rates. The Group is carry its borrowings primarily at fixed rate.

Particulars	31st March 2018	31st March 2017	1st April 2016
Fixed rate borrowings	5,176,695	2,095,860	745,034

(ii) Equity Price risk

Equity Price Risk is related to the change in market reference price of the investments in equity securities. The fair value of Group investment in quoted equity securities as at March 31, 2018, 2017 and April 1, 2016 was ₹ 1,35,26,023 , ₹ 1,07,98,955 and ₹1,04,60,192 respectively. A 10% change in equity price as at March 31, 2018, 2017 and April 1, 2016 would result in an impact of ₹1,35,16,023 , ₹1,07,95,277 and ₹1,06,00,055, respectively. (Note: The impact is indicated on equity before consequential tax impact, if any).

B) Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument leading to a financial loss. The Group is exposed to credit risk from its financing activities, investment in mutual funds and other financial instruments.

(i) Trade receivables

Customer credit risk is managed by each business location subject to the Group established policy, procedures and control relating to customer credit risk management. Credit quality of a customer is assessed and individual credit limits are defined in accordance with the assessment both in terms of number of days and amount. Any Credit risk is curtailed with arrangements with third parties .

An impairment analysis is performed at each reporting date on an individual basis for major clients. In addition, a large number of minor receivables are grouped into homogenous groups and assessed for impairment collectively. The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets disclosed in Note 36. The Company does not hold collateral as security.

(ii) Financial instruments and cash deposits

Credit risk from balances with banks and financial institutions is managed by the Group treasury department in accordance with the Company's policy. Investment of surplus funds are made only with approved counterparties. The Group maximum exposure to credit risk for the components of the balance sheet at 31 March 2017 and 31 March 2016 is the carrying value as illustrated in Note 36.

(C) Liquidity risk

Liquidity risk refer to the risk that the Group may not able to meet its financial obligations. The objective of liquidity risk management is to maintain sufficient liquidity and ensure that funds are available for use as per the requirement. The Group maintains its surplus funds, if any, in deposits / balances which carry low market risk. The Group believes that the working capital is sufficient to meet its current requirements. Accordingly, no liquidity risk is perceived.

Note : 39 Capital Management :

For the purpose of the Group capital management, capital includes issued equity capital, share premium and all other equity reserves attributable to the equity holders of the Group. The primary objective of the Group capital management is to maximise the shareholder value.

The Group manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants. To maintain or adjust the capital structure, the Group may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. The Group monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt.

Note : 40 First time adoption of Ind AS

These consolidated financial statements of Smifs Capital Markets Ltd and Smifs Capital Services Ltd. For the year ended March 31, 2018 have been prepared in accordance with Ind AS. For the purposes of transition to Ind-AS, the group has followed the guidance prescribed in Ind AS 101 First-Time Adoption of Indian Accounting Standards, with April 1, 2016 as the transition date and IGAAP as the previous GAAP.

The transition to Ind-AS has resulted in changes in the presentation of the financial statements, disclosures in the notes thereto and accounting policies and principles. The accounting policies set out have been applied in preparing the consolidated financial statements for the year end 31st March, 2018 and the comparative information.

Exemptions and exceptions availed

Set out below are the applicable Ind AS 101 optional exemptions and mandatory exceptions applied in the transition from previous GAAP to Ind AS.

a) Ind AS Optional exemptions

Deemed Cost

Ind AS 101 permits a first-time adopter to elect to continue with the carrying value for all of its property, plant and equipment as recognised in the financial statements as at the date of transition to Ind AS, measured as per the previous GAAP and use that as its deemed cost as at the date of transition after making necessary adjustments for de-commissioning liabilities. This exemption can also be used for intangible assets covered by Ind AS 38 Intangible Assets.

Accordingly, the group elected to measure all of its property, plant and equipment and other intangible assets at their previous GAAP carrying value.

b) Ind AS Mandatory exceptions

Designation of previously recognised financial instruments

Ind AS 101 permits entity to designate particular equity investments (other than equity investments in subsidiaries, associates and joint arrangements) as at fair value through other comprehensive income (FVTOCI) based on facts and circumstances at the date of transition to Ind AS (rather than at initial recognition). Other equity investments are classified in fair value through profit or loss (FVTPL).

Defined benefit liabilities

Both under Indian GAAP and Ind AS, the group recognised costs related to its post-employment defined benefit plan on an actuarial basis. The entire cost, including actuarial gains and losses, are charged to profit or loss. Under Ind AS, remeasurements [comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets excluding amounts included in net interest on the net defined benefit liability] are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI. Remeasurement gains/ losses on defined benefit plans has been recognized in the OCI net of tax.

c) Reconciliations between previous GAAP and Ind AS

Ind AS 101 requires an entity to reconcile equity, total comprehensive income and cash flows for prior periods. The following tables represent the reconciliations from previous GAAP to Ind AS.

Disclosure required by Ind AS 101 - First time adoption of Ind AS

NOTES ON CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31st MARCH, 2018

Adjustment to statement of cash flow statement

Amount in ₹

There were no material differences between the Statement of Cash Flows presented under Ind AS and the previous GAAP.

Notes to first-time adoption:

Note : 1 Non Current Investments

Under previous GAAP, non-current investments were stated at cost less any impairment that was other than temporary. Under Ind AS, financial assets in equity instruments other than investments in subsidiaries have been classified as Fair Value Through Other Comprehensive Income (FVTOCI). At the date of transition to Ind AS, difference between the fair value of investment and IGAAP carrying amount has been recognised in Retained Earnings. Investments in Mutual funds has been classified as Fair Value through Profit and Loss.

Note : 2 Loans/Other Financial assets/ Other Current assets

As per Schedule III, Security Deposits are to be classified under Loans or Other Non-current/Current Assets respectively. Accordingly, Security Deposits which are financial in nature are classified under Loans and other deposits are classified under Non-current/ Current Assets respectively.

Under IGAAP, Loans and Advances were shown together under Loans and Advances. However, as per Schedule III, Advances are classified under other Non-current/Current Assets.

Note : 3 Impairment of Financial Assets

Impairment for receivables from leased assets and trade receivable is measured in Ind AS based on life time expected credit losses. Expected credit loss allowance is measured based on historical credit loss experience, defaults, bankruptcy and forward looking information where relevant adjusted for probability of recovery. Under Previous GAAP, provision for trade receivable is measured based on factors such as age of receivables, defaults etc. adjusted for probability of recovery.

Note : 4 Defined benefit liabilities

Both under Indian GAAP and Ind AS, the group recognised costs related to its post-employment defined benefit plan on an actuarial basis. The entire cost, including actuarial gains and losses, are charged to profit or loss. Under Ind AS, remeasurements [comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets excluding amounts included in net interest on the net defined benefit liability] are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI.

Note : 5 Deferred Tax

Under Previous GAAP, deferred taxes were recognised for the tax effect of timing differences between accounting profit and taxable profit for the year using the income statement approach. Under Ind AS, deferred taxes are recognised using the balance sheet for future tax consequences of temporary differences between the carrying value of assets and liabilities and their respective tax bases. The above difference, together with the consequential tax impact of the other Ind AS transitional adjustments lead to temporary differences. Deferred tax adjustments are recognised in correlation to the underlying transaction either in retained earnings or through other comprehensive income.

Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these Standalone Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act, read with relevant rules issued thereunder. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Standalone Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these Standalone Ind AS financial statements based on our audit.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the Standalone Ind AS financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Standalone Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the Standalone Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the Standalone Ind AS financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Standalone Ind AS financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Standalone Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including the Standalone Ind AS, of the state of affairs of the Company as at 31st March, 2018, and its financial performance including other comprehensive income, its cash flows and the change in equity for the year ended on that date.

ANNEXURE B TO THE INDEPENDENT AUDITOR'S REPORT

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of SMIFS Capital Services Ltd to the extent records available with us in conjunction with our audit of the financial statements of the company as of and for the year ended 31st March 2018.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2018, based on the internal control over financial reporting criteria established by the Company.

The Financial Statements of the Company have been prepared on historical cost convention under accrual method of accounting and as a going concern concept except for certain assets and liabilities which are measured at fair values as required by Ind AS.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

All assets and liabilities have been classified as per the Company’s normal operating cycle and the other criteria as set out in the Division II of Schedule III to the Companies Act, 2013. The Company has ascertained its operating cycle as 12 months for the purpose of current and noncurrent classification of assets and liabilities.

c) Use of estimates

In preparation of the financial statements, the Company makes judgements, estimates and assumptions about the carrying values of assets and liabilities that are not readily apparent from

SMIFS CAPITAL SERVICES LIMITED

NOTES ON FINANCIAL STATEMENTS FOR THE YEAR ENDED 31st MARCH, 2018

other sources. The estimates and the associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and the underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised and future periods affected.

d) Property, plant and equipment

Property, plant and equipment are stated at cost less accumulated depreciation/amortization and impairment, if any. Freehold land is disclosed at cost less impairment, if any. Cost comprises of purchase price and directly attributable cost of acquisition/ bringing the asset to its working condition for its intended use (net of credit availed, if any). Capital work in progress, plant and equipment is stated at cost, net of accumulated depreciation and accumulated impairment losses, if any.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the entity and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

On transition to Ind AS, the entity has elected to continue with the carrying value of all of its property, plant and equipment recognised as at 1st April 2016 measured as per the previous GAAP and use that carrying value as the deemed cost of the property, plant and equipment.

An item of property, plant and equipment and any significant part initially recognised is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the income statement when the asset is derecognized.

Depreciation

Depreciation is the systematic allocation of the depreciable amount of PPE over its useful life and is provided on a written down value basis over the useful lives as prescribed under Schedule II to the Companies Act, 2013.

Depreciable amount for PPE is the cost of PPE less its estimated residual value. The useful life of PPE is the period over which PPE is expected to be available for use by the Company, or the number of production or similar units expected to be obtained from the asset by the Company.

Depreciation on additions is provided on a pro-rata basis from the month of installation or acquisition. Depreciation on deductions/disposals is provided on a pro-rata basis up to the month preceding the month of deduction/disposal.

e) Impairment of Non-financial assets

The Company assesses at each reporting date whether there is any indication that any property,

SMIFS CAPITAL SERVICES LIMITED

NOTES ON FINANCIAL STATEMENTS FOR THE YEAR ENDED 31st MARCH, 2018

plant and equipment and intangible assets or group of assets, called cash generating unit may be impaired. If any such indication exists, the Company estimates the recoverable amount of the asset. If such recoverable amount of the asset or the recoverable amount of the cash generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognised in the Statement of Profit and Loss. If at the balance sheet date there is an indication that if a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at the recoverable amount.

f) Borrowing costs

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use or sale and borrowing costs are being incurred. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale.

g) Provisions, Contingent liabilities and Contingent Assets

Provisions are recognised when there is a present obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and in respect of which reliable estimate can be made. Provisions are not discounted to its present value and are determined based on the best estimate required to settle the obligation at each Balance Sheet date. These are reviewed at each Balance Sheet date and adjusted to reflect the best current estimate.

A present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made, is disclosed as a contingent liability. Contingent liabilities are also disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non -occurrence of one or more uncertain future events not wholly within the control of the Company.

Contingent assets are not recognised in financial statements since this may result in the recognition of income that may never be realised. However, when the realisation of income is virtually certain, then the related asset is not a contingent asset and is recognised.

h) Revenue recognition

The company recognises revenue when the amount of revenue can be reliably measured, it is probable that future economic benefits will flow to the entity. The company bases its estimates on historical results, taking into consideration the type of customer, the type of transaction and specifics of each arrangement. Revenue is measured at the fair value of the consideration received or receivables.

(i) Interest Income

Income from interest on deposits, loan and interest bearing securities is recognised on a time proportion basis taking into account the underlying interest rate.

SMIFS CAPITAL SERVICES LIMITED

NOTES ON FINANCIAL STATEMENTS FOR THE YEAR ENDED 31st MARCH, 2018

(j) Dividend income

Dividend income is recognised at the time when right to receive the payment is established, which is generally when the shareholders approve the dividend.

(k) Income Tax

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities (including MAT) attributable to temporary differences and to unused tax losses.

Deferred tax is provided using the balance sheet approach on temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purpose at reporting date. Deferred income tax assets and liabilities are measured using tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect of changes in tax rates on deferred income tax assets and liabilities is recognized as income or expense in the period that includes the enactment or the substantive enactment date. A deferred income tax asset is recognized to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilized. The Company offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

Deferred tax assets include Minimum Alternate Tax (MAT) paid in accordance with the tax laws in India, which is likely to give future economic benefits in the form of availability of set off against future income tax liability. MAT is recognised as deferred tax assets in the Balance Sheet when the asset can be measured reliably and it is probable that the future economic benefit associated with the asset will be realised.

(l) Cash flow statement

Cash flows are reported using the indirect method, whereby profit for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated.

(m) Financial instruments

Financial assets and financial liabilities are recognised when a Company becomes a party to the contractual provisions of the instruments.

Financial Assets

Initial Recognition

All financial assets and liabilities are recognized at fair value on initial recognition, except for trade receivables which are initially measured at transaction price. Transaction cost that are

SMIFS CAPITAL SERVICES LIMITED

NOTES ON FINANCIAL STATEMENTS FOR THE YEAR ENDED 31st MARCH, 2018

directly attributable to the acquisition or issue of financial assets and financial liabilities, that are not at fair value through profit or loss, are added to the fair value on initial recognition

Classification and Subsequent Measurement: Financial Assets

The Company classifies financial assets as subsequently measured at amortised cost, fair value through other comprehensive income ("FVOCI") or fair value through profit or loss ("FVTPL") on the basis of following:

- entity's business model for managing the financial assets and
- contractual cash flow characteristics of the financial asset.

Debt Instruments

Amortised Cost

A financial asset is subsequently measured at amortised cost, if the financial asset is held within a business model, whose objective is to hold the asset in order to collect contractual cash flow and the contractual term of financial asset give rise on specified date to cash flow that are solely payment of principal and interest on principal amount outstanding.

Fair Value through Other Comprehensive Income

Financial assets that are held within a business model whose objective is achieved by both, selling financial assets and collecting contractual cash flows that are solely payments of principal and interest, are subsequently measured at fair value through other comprehensive income. Fair value movements are recognized in the other comprehensive income (OCI). Interest income measured using the EIR method and impairment losses, if any are recognised in the Statement of Profit and Loss. On derecognition, cumulative gain or loss previously recognised in OCI is reclassified from the equity to 'other income' in the Statement of Profit and Loss.

Fair Value through Profit or Loss

A financial asset is classified and measured at fair value through profit or loss unless it is measured at amortised cost or at fair value through OCI.

All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

Equity Instruments

All investments in equity instruments classified under financial assets are measured at fair value. The company in respect of equity investments, which are not held for trading made an irrevocable election based on its judgment to present in other comprehensive income subsequent changes in the fair value (FVOCI) of such equity instrument. The Company makes such election on an instrument-by-instrument basis. Fair value changes on an equity instrument is recognised as other income in the Statement of Profit and Loss unless the Company has elected to measure such instrument at FVOCI. Fair value changes excluding dividends, on an equity instrument measured at FVOCI are recognised in OCI. Amounts recognised in OCI are not subsequently reclassified to the Statement of Profit and Loss. Dividend income on the investments in equity instruments are recognised as 'other income' in the Statement of Profit and Loss.

SMIFS CAPITAL SERVICES LIMITED

NOTES ON FINANCIAL STATEMENTS FOR THE YEAR ENDED 31st MARCH, 2018

Financial Liabilities

Initial Recognition

Financial liabilities are initially measured at the amortised cost unless at initial recognition, they are classified as fair value through profit and loss. In case of trade payables, they are initially recognised at fair value and subsequently, these liabilities are held at amortised cost, using the effective interest method.

Classification and Subsequent Measurement: Financial liabilities

Financial liabilities are subsequently measured at amortised cost using the EIR method. Financial liabilities carried at fair value through profit or loss are measured at fair value with all changes in fair value recognised in the Statement of Profit and Loss.

Impairment of financial assets

Financial assets, other than those at FVTPL, are assessed for indicators of impairment at the end of each reporting period. The Company recognises a loss allowance for expected credit losses on financial asset. In case of trade receivables, the Company follows the simplified approach permitted by Ind AS 109 – Financial Instruments for recognition of impairment loss allowance. The application of simplified approach does not require the Company to track changes in credit risk. The Company calculates the expected credit losses on trade receivables using a provision matrix on the basis of its historical credit loss experience.

Derecognition of financial instruments

The Company derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the contractual rights to receive the cash flows from the asset.

A financial liability is derecognised when the obligation specified in the contract is discharged, cancelled or expires.

Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously.

(n) Fair value measurements

The Company measures financial instruments at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

SMIFS CAPITAL SERVICES LIMITED

NOTES ON FINANCIAL STATEMENTS FOR THE YEAR ENDED 31st MARCH, 2018

- In the principal market for the asset or liability.

Or

- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Company.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole;

Level 1- Quoted (unadjusted) market prices in active markets for identical assets or liabilities.

Level 2- Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.

Level 3- Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

(o) Employee benefits

Defined contributions plan

Contributions to defined contribution schemes such as employees' state insurance, labour welfare fund, superannuation scheme, employee pension scheme etc. are charged as an expense based on the amount of contribution required to be made as and when services are rendered by the employees. Company's provident fund contribution, in respect of certain employees, is made to a government administered fund and charged as an expense to the Statement of Profit and Loss. The above benefits are classified as Defined Contribution Schemes as the Company has no further defined obligations beyond the monthly contributions.

Defined benefit plans

The Company's Liabilities on account of Gratuity and Earned Leave on retirement of employees are determined at the end of each financial year on the basis of actuarial valuation certificates obtained from Registered Actuary in accordance with the measurement procedure as per Indian Accounting Standard (Ind AS) -19., 'Employee Benefits.' The costs of providing benefits under these plans are also determined on the basis of actuarial valuation at each year end. Actuarial gains and losses for defined benefit plans are recognized through OCI in the period in which they occur. Re-measurements are not reclassified to profit or loss in subsequent periods.

The Defined Benefit Plan can be short term or Long terms which are defined below:

(i) Short term Employee benefit

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render

SMIFS CAPITAL SERVICES LIMITED

NOTES ON FINANCIAL STATEMENTS FOR THE YEAR ENDED 31st MARCH, 2018

the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefits obligations in the balance sheet.

(ii) Long term Employee benefits

Compensated absences which are not expected to occur within 12 months after the end of the period in which the employee renders the related services are recognized as a liability at the present value of the defined benefit obligation at the balance sheet date.

(p) Segment reporting

An operating segment is a component of the Company that engages in business activities from which it may earn revenues and incur expenses, whose operating results are regularly reviewed by the company's chief operating decision maker to make decisions for which discrete financial information is available. Based on the management approach as defined in Ind AS 108, the chief operating decision maker evaluates the Company's performance and allocates resources based on an analysis of various performance indicators by business segments and geographic segments.

(q) Earnings per share

Basic earnings per share is computed by dividing the net profit for the period attributable to the equity shareholders of the Company by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period and for all periods presented is adjusted for events, such as bonus shares, other than the conversion of potential equity shares that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period is adjusted for the effects of all dilutive potential equity shares.

(r) Recent accounting pronouncements

Ind AS 12 - Income Taxes: The amendments clarify that an entity needs to consider whether tax law restricts the sources of taxable profits against which it may make deductions on the reversal of that deductible temporary difference. Furthermore, the amendments provide guidance on how an entity should determine future taxable profits and explain the circumstances in which taxable profit may include the recovery of some assets for more than their carrying amount.

Entities are required to apply the amendments retrospectively. However, on initial application of the amendments, the change in the opening equity of the earliest comparative period may be recognised in opening retained earnings (or in another component of equity, as appropriate), without allocating the change between opening retained earnings and other components of equity. Entities applying this relief must disclose that fact.

These amendments are effective for annual periods beginning on or after 1 April 2018. These amendments are not expected to have any impact on the Company as the Company has no deductible temporary differences or assets that are in the scope of the amendments.

SMIFS CAPITAL SERVICES LIMITED

NOTES ON FINANCIAL STATEMENTS FOR THE YEAR ENDED 31st MARCH, 2018

Ind AS 115- Revenue from Contract with Customers: On March 28, 2018, Ministry of Corporate Affairs ("MCA") has notified the Ind AS 115, Revenue from Contract with Customers. The core principle of the new standard is that an entity should recognise revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Further, the new standard requires enhanced disclosures about the nature, amount, timing and uncertainty of revenue and cash flows arising from the entity's contracts with customers.

The standard permits two possible methods of transition:

Retrospective approach - Under this approach the standard will be applied retrospectively to each prior reporting period presented in accordance with Ind AS 8- Accounting Policies, Changes in Accounting Estimates and Errors;

Retrospectively with cumulative effect of initially applying the standard recognized at the date of initial application (Cumulative catch - up approach) The effective date for adoption of Ind AS 115 is financial periods beginning on or after April 1, 2018.

The Company will adopt the standard on April 1, 2018 by using the cumulative catch-up transition method and accordingly comparatives for the year ending or ended March 31, 2018 will not be retrospectively adjusted. The effect on adoption of Ind AS 115 is expected to be insignificant.

Note : 23 Significant accounting judgements, estimates and assumptions

The preparation of the Company's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

Judgements

In the process of applying the Company's accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognised in the financial statements:

Fair value measurement of financial instruments

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using other valuation techniques. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial

Impairment of non-financial assets

Impairment exists when the carrying value of an asset or cash generating unit exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. The fair value less costs of disposal calculation is based on available data from binding sales transactions, conducted at arm's length, for similar assets or observable market prices less incremental costs for disposing of the asset. The value in use calculation is based on a DCF model. The cash flows are derived from the budget for the next five years and do not include restructuring activities that the Company is not yet committed to or significant future investments that will enhance the asset's performance of the CGU being tested. The recoverable amount is sensitive to the discount rate used for the DCF model as well as the expected future cash-inflows and the growth rate used for extrapolation purposes.

Level 1 : Level 1 hierarchy includes financial instruments measured using quoted prices. This includes listed equity instruments that have quoted price. The fair value of all equity instruments which are traded in the stock exchanges is valued using the closing price as at the reporting period.

Level 2 : The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in Level 2.

Level 3 : If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities, contingent consideration and indemnification asset included in level 3.

Note : 26 Financial risk management objectives and policies

In the Course of its business, the Company is exposed to a variety of financial risk, which may adversely impact the fair value of its financial instruments. The Company has a risk management policy to cover financial risk : Market risk, Credit risk and Liquidity risk associated with financial assets and liabilities. The risk management policies is reviewed by Board of Director periodically and required mitigation steps are taken.

(A) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risks. The value of a financial instrument may change as a result of changes in the interest rates, equity price fluctuations and other market changes. Future specific market movements cannot be normally predicted with reasonable accuracy.

(i) Equity Price risk

Equity Price Risk is related to the change in market reference price of the investments in equity securities. The fair value of Company's investment in quoted equity securities as at March 31, 2018, 2017 and April 1, 2016 was ₹ 68,207, ₹ 36,383 and ₹ 40,01,367, respectively. A 10% change in equity price as at March 31, 2018, 2017 and April 1, 2016 would result in an impact of ₹6,820, ₹ 3,638 and ₹4,00,136, respectively.

(Note: The impact is indicated on equity before consequential tax impact, if any).

(B) Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument leading to a financial loss. The Company is exposed to credit risk from its financing activities, investment in mutual funds and other financial instruments.

SMIFS CAPITAL SERVICES LIMITED

NOTES ON FINANCIAL STATEMENTS FOR THE YEAR ENDED 31st MARCH, 2018

(C) Liquidity risk

The Company monitors its risk of a shortage of funds by estimating the future cash flows. The Company's objective is to maintain a balance between continuity of funding and flexibility through the use of bank overdrafts, cash credit facilities and bank loans. The Company assessed the concentration of risk with respect to refinancing its debt and concluded it to be low

Note : 29 First time adoption of Ind AS

These standalone financial statements of Smifs Capital Services Ltd. For the year ended March 31, 2018 have been prepared in accordance with Ind AS. For the purposes of transition to Ind-AS, the company has followed the guidance prescribed in Ind AS 101 First-Time Adoption of Indian Accounting Standards, with April 1, 2016 as the transition date and IGAAP as the previous GAAP.

The transition to Ind-AS has resulted in changes in the presentation of the financial statements, disclosures in the notes thereto and accounting policies and principles. The accounting policies set out have been applied in preparing the standalone financial statements for the year end 31st March, 2018 and the comparative information.

Exemptions and exceptions available

Set out below are the applicable Ind AS 101 optional exemptions and mandatory exceptions applied in the transition from previous GAAP to Ind AS.

a) Ind AS Optional exemptions

Deemed Cost

Ind AS 101 permits a first- time adopter to elect to continue with the carrying value for all of its property, plant and equipment as recognised in the financial statements as at the date of transition to Ind AS, measured as per the previous GAAP and use that as its deemed cost as at the date of transition after making necessary adjustments for de-commissioning liabilities. This exemption can also be used for intangible assets covered by Ind AS 38 Intangible Assets.

Accordingly, the company elected to measure all of its property, plant and equipment and other intangible assets at their previous GAAP carrying value.

b) Ind AS Mandatory exceptions

Designation of previously recognised financial instruments

Ind AS 101 permits entity to designate particular equity investments (other than equity investments in subsidiaries, associates and joint arrangements) as at fair value through other comprehensive income (FVTOCI) based on facts and circumstances at the date of transition to Ind AS (rather than at initial recognition). Other equity invest-

ments are classified in fair value through profit or loss (FVTPL)

Defined benefit liabilities

Both under Indian GAAP and Ind AS, the Company recognised costs related to its post-employment defined benefit plan on an actuarial basis. The entire cost, including actuarial gains and losses, are charged to profit or loss. Under Ind AS, remeasurements [comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets excluding amounts included in net interest on the net defined benefit liability] are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI. Remeasurement gains/ losses on defined benefit plans has been recognized in the OCI net of tax.

c) Reconciliations between previous GAAP and Ind AS

Ind AS 101 requires an entity to reconcile equity, total comprehensive income and cash flows for prior periods. The following tables represent the reconciliations from previous GAAP to Ind AS.

NOTES ON FINANCIAL STATEMENTS FOR THE YEAR ENDED 31st MARCH, 2018

Adjustment to statement of cash flow statement

There were no material differences between the Statement of Cash Flows presented under Ind AS and the previous GAAP.

Notes to first-time adoption:

Note : 1 Non Current Investments

Under previous GAAP, non-current investments were stated at cost less any impairment that was other than temporary. Under Ind AS, financial assets in equity instruments other than investments in subsidiaries have been classified as Fair Value Through Other Comprehensive Income (FVTOCI). At the date of transition to Ind AS, difference between the fair value of investment and IGAAP carrying amount has been recognised in Retained Earnings. Investments in Mutual funds has been classified as Fair Value through Profit and Loss.

Note : 2 Loans/Other Financial assets/ Other Current assets

As per Schedule III, Security Deposits are to be classified under Loans or Other Non-current/Current Assets respectively. Accordingly, Security Deposits which are financial in nature are classified under Loans and other deposits are classified under Non-current/ Current Assets respectively. Under IGAAP, Loans and Advances were shown together under Loans and Advances. However, as per Schedule III, Advances are classified under other Non-current/Current Assets.

Note : 3 Defined benefit liabilities

Both under Indian GAAP and Ind AS, the Company recognised costs related to its post-employment defined benefit plan on an actuarial basis. The entire cost, including actuarial gains and losses, are charged to profit or loss. Under Ind AS, remeasurements [comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets excluding amounts included in net interest on the net defined benefit liability] are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI.

Note : 4 Deferred Tax

Under Previous GAAP, deferred taxes were recognised for the tax effect of timing differences between accounting profit and taxable profit for the year using the income statement approach. Under Ind AS, deferred taxes are recognised using the balance sheet for future tax consequences of temporary differences between the carrying value of assets and liabilities and their respective tax bases. The above difference, together with the consequential tax impact of the other Ind AS transitional adjustments lead to temporary differences. Deferred tax adjustments are recognised in correlation to the underlying transaction either in retained earnings or through other comprehensive income.

Capital employed:

Fixed Assets used in the Company's operations or liabilities contracted cannot be identified with any of the reportable segments as the fixed assets are used interchangeably between segments. The Company believes that it is currently not practice to provide segment disclosures relating to total assets and liabilities since a meaningful segregation of data is not possible.

Note : 33 Previous year figures have been reclassified / regrouped / rearranged wherever necessary.
