The financial statements are in compliance with the requirements of the Companies Act, 1956 and the Accounting Standards. Readers are cautioned that this discussion may contain "forward-looking statements" that are not historical in nature. 2. MACRO-ECONOMIC OVERVIEW

The Financial Year 2007 – 2008 was yet another challenging year for your Company having experienced a turbulent capital market.

The growth of Indian economy has slowed down in the current year and the GDP growth is expected to be around 7% for the year 2008-2009 which is below the three year's average of 8.8%. The unprecedented increase in the prices of crude oil above US \$130 per barrel has started having its effect on the economy as India imports substantial portion of its requirement of oil. Inflation for the week ended June 7, 2008 reached as high as 11.05%(year on year) and is expected to increase further in the near term. Reserve Bank of India has already taken measures to tighten money supply and has increased both the CRR and the Repo rate to contain inflation. (It is also expected that the Reserve Bank of India will resort to further tightening of money supply and increase repo rate further to contain inflation.) Meanwhile Foreign Institutional Investors continue to sell in the Indian market and have so far sold over US\$ 5.6 billion worth of Indian stocks as against having bought stocks of US\$ 51 billion between the beginning of the year 2003 and the end of the year 2007. Indian Rupee also weakened against the US \$ by 5% due to impact of high oil prices and FII outflows. BSE Sensex witnessed a downward slide since the month of January, 2008 after the sensex reached a high of 20873.33 on 8th January, 2008. The growth rate in corporate earnings is expected to come down and the corporate earnings are expected to grow by around 15% to 17% in the current year.

3. INDUSTRY DEVELOPMENT

In view of the above factors, activities have reduced considerably in the financial services industry and volumes have also dropped significantly in the stock markets.

4. BUSINESS OPPORTUNITIES AND THREATS

4.1. *Business Opportunities*

Many large corporates have announced investment plans and it is expected that atleast some will tap the capital market resulting in opportunities for investment bankers and capital market intermediaries.

4.2. Threats

Most of the competitors of your Company have international affiliations or are a part of large global network. To compete successfully, it may become necessary for your Company also to look for such an alliance.

5. OUTLOOK

The global economy is facing recession particularly due to the recession in the US market owing to the sub prime crisis. Surging oil prices are also likely to dampen growth in the importing countries and likely to accelerate the inflation rate.

Infrastructure development is slated to continue and should gradually unshackle the Indian economy from supply constraints. Twin roles of funding investment and distributing its benefits widely will be played by Indian financial services sector.

The Stock Markets are currently attractively valued at approx 13 times 2008-2009 and any further decline will make the valuation of shares attractive for investment. Stock Markets may also rebound if oil prices come down to levels of US \$100 to US \$110 per barrel.

Your Company is executing assignments in the areas of resource mobilization, corporate advisory services, capital market operations. However, it is expected that the current year will be both difficult and challenging. Your Company views real estate development as an attractive opportunity of growth in the medium to long term and subject to the approval by the shareholders in the ensuing general meeting proposes to exploit the same.

6. INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY

Internal control systems are aimed at promoting operational efficiencies while emphasizing adherence to the policies adopted by the Board of Directors.

7. CAUTIONARY STATEMENT

Statements in the Management Discussion and Analysis describing your Company's position and expectations may be "forward looking statements" within the meaning of applicable securities laws and regulations. Actual results may differ materially from those expressed or implied.

The financial statements have been prepared to comply, in all material respects, with the mandatory Accounting Standards issued by the Institute of Chartered Accountants of India and the relevant provisions of the Companies Act, 1956.

The financial statements have been prepared under the historical cost convention on an accrual basis.

The accounting policies have been consistently applied by the Company and except for the changes in accounting policy discussed more fully below, are consistent with those used in the previous year.

(b) Fixed Assets

Fixed assets are stated at cost, less accumulated depreciation and Lease Terminal Adjustment account. Cost comprises the purchase price and any attributable cost of bringing the asset to its working condition for its intended use.

For lease contracts, which have become non-performing assets, depreciation has been provided at accelerated rate of depreciation calculated on principal recovery method.

(g) Revenue recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured.

In respect of lease rentals arising out of lease agreements, it is the company's policy to recognise income as per the terms of the agreements entered into with lessees. However, where lease rentals are past due for more than one year, the Company has not recognised any income as per the past practice followed by the company. Similarly, the company has not recognised any income in cases where there is a delay of more than six months in the case of income from interest.

(h) Retirement Benefits

Deferred tax assets are recognized only if there is reasonable certainty that they will be realised and are reviewed for the appropriateness of their respective carrying values at each balance sheet date.

Fringe benefit tax has been calculated in accordance with the provisions of the Income Tax Act, 1961.
